-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-38, drawn to an apparatus to capture images of a surrounding scene comprising a camera array bar to support one camera or a multiple of cameras, classified in class 348, subclass 218.1
 - II. Claims 39-62, drawn to rendering a view of a surrounding scene, classified in class 348, subclass 51.
 - III. Claims 63-64, drawn to generating a rendered view image of a 3D scene, classified in class 345, subclass 427.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II, and III are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as an apparatus to capture images of a surrounding scene comprising a camera array which does not include the particular listed of inventions II and III, such as rendering a view of a surrounding scene and generating a rendered view image of a 3D scene. Likewise, invention II has separate utility such as rendering a view of a surrounding scene which does not include the particular listed of inventions I and III, such as a camera array for capturing images of a surrounding scene and generating a rendered view image of a 3D scene. Furthermore, invention III has separate utility such as generating a rendered view image of a 3D scene which does not include the

particulars listed of inventions I and II, such as a camera array for capturing images of a surrounding scene and rendering a view of a surrounding scene. See MPEP § 806.05(d).

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Heather R Long whose telephone number is 703-305-0681. The examiner can normally be reached on Mon. - Thurs.: 7:00 am - 4:30 pm, and every other Fri.: 7:00 am - 3:30 pm.
